Explanation - Original statute required two people with an  
audiologist license at the master's level.

Senate amendments struck all requirements for an audiology  
license but allowed one person to be an audiologist or  
otolaryngologist or person who uses hearing aids.

This amendment would put back into statute one required  
audiologist and allows a second one to be appointed (under lines  
3-5 on p. 3)

Board membership with this amendment would be:

- 2 hearing aid dispensers with at least 5 years experience
- 1 licensed audiologist with master's level college degree
- 1 person who either is an ear, nose, & throat doctor OR an  
audiologist OR a person who uses a hearing aid
- 1 person who represents the general public
